REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Board of School Directors and Citizens of the Town of Clarendon:

I herewith submit my fifth annual report as your Superintendent of Schools.

Good schools don't just happen. They develop through the active cooperation of the school staff, and parents and friends in the community. The part played by enlightened citizens in their support of public schools will continue to pay dividends through the turning out of young people better equipped to face the future.

THE 3 R's

Schools are not the same as they were in the "good old days". DEFINITELY NOT. They have improved.

In the old days, the elementary schools would prepare students for high school, and the high schools would then prepare students for college. That was the main purpose of education, and naturally the "drop-out" rate was high.

Today, most of our young people are staying in school until they complete prescribed courses in education. As children differ in ability, in health, and in interest, so must the schools adjust their work to fit individual needs. All the pedagogical skill in the world cannot make perfect spellers and readers out of every child in our public school system. Education cannot compensate for either mental or physical defects, but it can aid and assist every child. With our compulsory school attendance laws, and as children spend more time in school, certainly the 3 R's must not be neglected.

SCHOOL ENROLLMENTS

Our entrance regulation requires that a child be six years old before January 1 to enter Grade 1 in September of that school year.

A great deal of thinking has gone into this matter of school entrance by various educators throughout our country. It is important to parents in the future success of their children that boys and girls be fairly close to six years old before they try the reading program as presented in our schools in the first grade. We can give your children a much better foundation in reading, which will eliminate failure in later grades, if your children are a little older when they enter school.

SCHOOL BUDGET FOR 1952

Several meetings of the School Directors have been devoted to consideration of the school budget. As operating costs continue to rise, it is only natural that school costs are moving upward.

The attention of all taxpayers is called to the fact that about \$13,000 per year is received by the Town School District from our state aid program.

Here is a comparison of our current school expenses over a five year period:

SCHOOL YEAR	NUMBER OF ELEMENTARY PUPILS ENROLLED	SCHOOL COSTS
1946-47	140	\$15,628.97
1947-48	149	20,767.60
1948-49	156	22,013.18
1949-50	183	27,915.37
1950-51	199	30,921.12

Here is a comparison of our per pupil costs over a five year period:

1946-47	98.87
1947-48	122.16
1948-49	126.23
1949-50	130.52
1950-51	134.51

Here is a comparison of our State Aid reimbursement over a five year period:

1946-47	\$ 5,208.15

CONCLUSION

Conducting the affairs of a school system calls for a high degree of co-operation among School Directors, teachers, pupils, and their parents, all of whom must have a common purpose—the well planned and properly conducted education of the youth of our community.

I feel sure that these continued pleasant relationships will go far in making the Clarendon Schools outstanding in their service to the young people of a fine town.

Respectfully submitted,

ARTHUR C. OULTON,
Superintendent of Schools.
